

Course Director: Amar Salti, MD

Consultant Anesthesia & Pain Medicine,
Sheikh Khalifa Medical City, Abu Dhabi UAE

9 & 10 November 2018

Crowne Plaza, Sheikh Zayed Road
Dubai, UAE

Description:

The **NYSORA Pain Boutique Workshop** is an educational program presented by a world class faculty to enhance knowledge about pain and related interventional procedures.

The program will include practical hands-on ultrasound-guided pain and musculoskeletal blocks.

The sessions consist of brief didactic instructions by interplay of 3D and anatomy presentations and ultrasound scanning demonstration. Delegates will then split in to small groups for hands-on scanning practice with instructors.

NYSORA's boutique workshops have just become better by incorporating the most sophisticated training simulators to date.

See the range of all new NYSORA's educational tools at www.MyMiniSim.com which are used in all NYSORA's workshops for training and certification of skills acquisition.

Looking forward to seeing you in Dubai

Course Objectives:

- Gain fundamental knowledge on the anatomy of targeted areas
- Be able to identify major structures and learn injection techniques
- Understand common pathologies of the musculoskeletal system, as seen on ultrasound
- Discuss the mechanism of regenerative medicine and find the right indications
- Develop a strategy to implement ultrasonography into clinical practice

Agenda Topics:

- Upper Extremity and Sympathetic Blocks for Chronic Pain. Carpal Tunnel Syndrome, Tennis Elbow, Blocks for Shoulder Pain, Stellate Ganglion
- Paravertebral, Spine Erector Spinae, TAP and QLB, Abdominal Muscles and Interfacial Planes
- Lower Extremity: Fascia Iliaca and Lumbar Plexus, Ilioinguinal, Iliohypogastric, Lateral Femoral Cutaneous Nerve (LFCN), Posterior Cutaneous Femoral Nerve, Genicular Nerve Block, IPAK
- Cervical Pain: Cervical Medial Branch (CMB) & Facet Joints, Third Occipital Nerve (TON), Occipital Nerve Blocks
- Blocks for Lumbar Pain: Facet & Medial Branch, Selective Lumbar Nerve Root Injections, Back Muscles
- Pelvic Pain & Deep Gluteal Syndrome: Piriformis (Piri) and Pudendal (Pud) Nerve Blocks & Ultrasound of Sacrum and Gluteal Region: Sacroiliac (SI) Joint, Sacral Transforaminal Impar Ganglion
